

Advanced 3D Solid Creation using Discover 3D

March 1, 2008 • Toronto, ON

This one day course is intended for the advanced Discover 3D user. It will cover the Features menu and the 3D Solid Generator. The Features menu provides a powerful utility for the creation, storage and display of 3D feature objects. The 3D Solid Generator is useful for creating interpreted 3D objects such as ore body, fault or other geological solids (eg aquifers), as well as infrastructure such as dams or open cut extents. The course will be taught by Owen Parfrey of Encom Australia. Registration is limited to advanced Discover users.

Each attendee is required to provide their own laptop with MapInfo Professional and Discover 9 + the 3D Module.

Course prerequisites – experienced with MapInfo, Discover 3D and must be familiar with creating geologic models.

Course Topics

Feature Creation

- Create New Feature Database
- Open Feature Database
- Create Feature Objects
- Feature Properties
- Selecting and Editing Objects
- Displaying and Editing Attributes
- Export Features

- Querying Features
- Feature Options

3D Solid Generation

- Create Boundaries
- Create 3D Solid
- Algorithm Options
- Tie Lines
- Output Options

Price: \$495 per person.

General Registration Information

Registration Form

Class size is limited. It is recommended that you submit your registration form as soon as possible to scheduled class. A completed registration form, with signature, is required from each attendee. Registrations will be accepted on a first-come, first-serve basis. An incomplete registration form or a form unaccompanied with payment will not be processed, and may delay class reservation. **Registration closes 1 week before the scheduled class start date.**

Payment

Tuition must be paid in full at the time of registration. Course fees are listed above. Acceptable forms of payment: checks (payable to GeoGRAFX), Discover, MasterCard, Visa. Payment must be made in US dollars.

Processing Fees and Refunds

Due to limited class size, GeoGRAFX must maintain firm policies concerning fees and refunds.

Each course fee includes a \$100 nonrefundable data processing fee. The course fee, less the data processing fee, will be refunded if we receive notice of cancellation at least 2 days prior to the class start date. Full course fee will be charged for those who fail to appear or who cancel or reschedule 2 business days or fewer before the class start date.

To Register:

Fax this form with method of payment to: 520 744-3066 or

Mail this form with payment to: GeoGRAFX • 2480 W. Ruthrauff Rd, Ste 140G • Tucson, AZ 84705.

For more information:

Call: 800-663-1334 • 520 744-4457 • Email info@geogرافxworld.com • URL www.tetrad.com, • www.geogرافxworld.com

Substitutions

Attendee substitutions are allowed, without \$100 data processing fee, provided GeoGRAFX is notified in advance to class start date.

Class Schedule Changes and Cancellations

It is sometimes necessary to change the dates a class is offered or to cancel a class. Registrants will be contacted at the earliest opportunity in the event of a scheduling change or cancellation.

Travel

Transportation to training site is the registrant's responsibility.

GeoGRAFX assumes no responsibility for losses of nonrefundable travel arrangements resulting from course scheduling changes or cancellations.

Lodging

Registrants are responsible for their own lodging arrangements. Once registered, registrants are provided with confirmation letter via fax or email. This letter will notify you of training site location and directions and may list other site details such as area hotels.

Course Times/Materials

Each individual site determines course times. Please refer to site information accompanying the confirmation letter. There will be two short breaks and one-hour for lunch (meal not provided.) Weather appropriate dress is suggested. All course materials are provided at the training site.
